USER MANUAL PROTOTYPE

XKEY

Make Presentations More Powerful

Unlock the full potential of PowerPoint
with shortcuts, workflow tools, and shape utilities.

Version 1.2 • English Edition

Quick Start

Install XKEY, activate the ribbon, and start assigning shortcuts in minutes.

1 Install XKEY

1 Download XKEY from the website

Visit the XKEY website and download the installer.

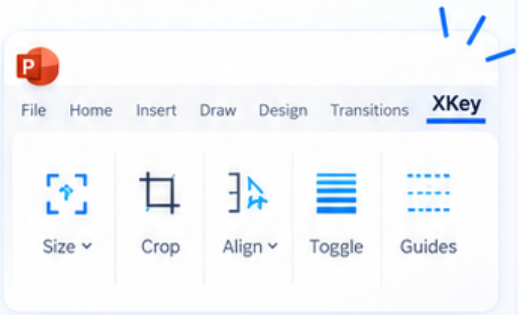

2 Run setup.exe from your Downloads folder

Open your Downloads folder and double-click setup.exe to run the installer.

3 Restart PowerPoint and confirm the XKey tab appears in the ribbon.

After installation, restart PowerPoint and check that the XKey tab is available in the ribbon.

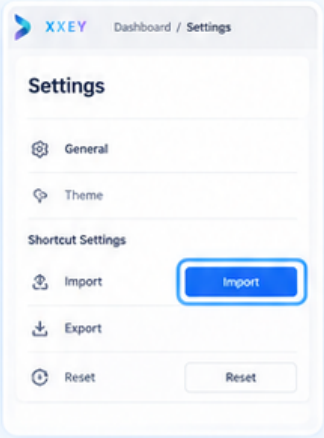

2 Set Up Your Shortcuts

Import Recommended Settings

Get started quickly with ready-to-use shortcut settings.

1. **Open Dashboard > Settings**
   In the XKEY Dashboard, open Settings.
2. **Choose Import**
   Click the Import button.
3. **Select a .json file**
   Choose a recommended settings file (.json).
4. **Click Save**
   Apply the imported settings by clicking Save.

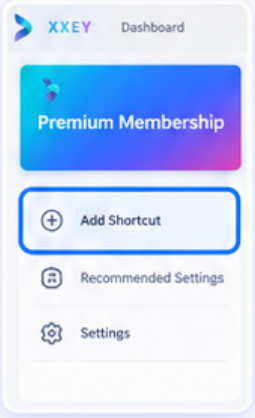

Recommended settings can be downloaded from the XKEY website.

Add Your Own Shortcuts

Assign shortcuts for the features you use most.

1. **Open Dashboard > Add Shortcut**
   In the XKEY Dashboard, select Add Shortcut.
2. **Find a feature by category or keyword**
   Browse categories or use the search box to find the feature you want.
3. **Press keys to assign the shortcut**
   Select the feature, then press your desired key combination.
4. **Click Save**
   Save the shortcut to apply the changes.
